

# CARMEL SPECTRUM

VOL-1, ISSUE 3, JANUARY 2019

## Dear Readers,

A warm and joyful new year greetings to you all! I hope you spent the winter vacations in the most fruitful manner by giving your time for your parents and family. As I welcome you into the 4<sup>th</sup> quarter of our academic life in 2018-19, which also coincides with the new year, I feel fortunate to be part of this learning community of parents, staff and students who work unitedly to provide the very best environment for each individual child.

The past quarter was full of excitement and celebrations. Religious festivals like Diwali and Christmas brought cheer to everyone. The annual day celebrations in November was a lavish treat for all. The well-synchronised programs that had dances, music and live performances were a testimony of the rich reservoir of talents among the Carmelites. Our students participated in numerous academic and co-curricular activities that have helped them in their learning. We also hosted the state level science congress at our campus. This past quarter also offered a platform for our Kindergarten teachers to excel on the big stage when they became the resource persons to facilitate a workshop for 120 teachers from other schools on effective teaching techniques in KG classes.

The cases above affirm that we are true to our motto - Belief Enhances Life. For, at Carmel we aspire to build a resourceful individual out of a naive human, rendering her the wisdom which will lead to broader perspectives of life. Emphasis, therefore, is on learning rather than teaching. Our endeavour is to equip our students with life-skills to face the real world - be it in planning, organizing, deciding, questioning, reasoning, analyzing, team-building and communicating effectively or dealing with challenges confidently. This is evident from the number of programs our students organise and execute regularly within and outside the school.

The final quarter of 2018-19 is going to be a historic one as the first batch of Carmelites will pass out of Class XII to embark on their onward journey. Higher Secondary is a big dream come true for all, particularly the parents who desired to continue the education of their girls until class XII. I offer my best wishes and prayers for their success as they prepare for the board examinations.

For over two decades, our kids are stepping forward and getting exposure to all kinds of activities related to academics, personality development, sports and other important life skills. We foster and deliver quality education and feel proud to augment a unique learning system in our school which enables our children to understand all concepts in an innovative manner. Final examinations are on the horizon for many of you and I wish you all the best for the upcoming assessments and for the adventures that await you in the months and years to come.

God bless you!
