CLASS:-VIII

COMPUTER

I. It was Microsoft’s first database software, and came along with a lot of advantages and convenience for its users. At the same time, there were limitations to it. Given below are the benefits and limitations which came along with MS Access usage. You need to arrange them under appropriate column.

- Easy to create database within lesser time duration
- Not too many people can use the same database at a single time. This may affect its speed and efficiency
- Better database systems can be used for confidential data
- Used a very comprehensive programming language which made it user friendly
- It is easy to install and then easy to understand its working
- Importing data was easy
- Graphical user interface made it easy to use
- With each revised version, new options and features were made available to the users for their convenience
- The same database was tough to use with different Operating systems

Advantages/ Benefits	Limitations

Label all the encircled components of MS Access:

III. Multiple Choice Questions:

A. Which of the following is not a component of MS Access?

- Tables
- Forms
- Module
- Worksheet
- Report

B. _____ is another name for columns in Microsoft Access tables.

- Records
- Fields
- Data fields
- Cells
- None of the above

C. What is the size of yes/no fields?

- 1 KB
- 1 Byte
- 1 Bit
- 1 MB
- 1 GB

D. The tool using which predefined actions which can automate tasks on an Access report is called _____

- Form
- Fields
- Macros
- Tables
- Module

CLASS:-VIII

E. The first version of MS Access database management system was released in the year _____

- 1991
- 1992
- 1993
- 1994
- 1995

F. Which field type will you select if you need to enter long text in that field?

- Text
- Memo
- Currency
- Hyperlink
- OLE

G. What can be the maximum length of a text field?

- 120
- 255
- 265
- 75
- 175

H. Which field type can store photos?

- Hyperlink
- OLE Object
- Both 1& 2
- It is not possible
- Lookup Wizard

I. Which of the following shows the final result in a presentable way?

- Forms
- Reports
- Queries
- Tables
- Database

J. In which method we don't need to specify the field type and size while creating a new Table?

- Design View
- While using Wizard
- CreateTable by Entering Data
- All of Above
