CLASS:-UKG

*“Every child is gifted, they just unwrap their packages at different times”*

Dear parents

Children have unique , abilities ,interests ,likes and dislikes .One child may devour books and love to dance, another may love animals, and a third may love music and math. That’s the beauty of human beings ----- we are such interesting and different creatures.

Dr. Howard Gardener suggests that everyone actually possesses nine different forms of MULTIPLE INTELLIGENCES. This means that we should not label children with particular learning style or intelligences, since they have them all!

So with following activities we want to explore that your child falls under which different intelligences:
