Warm Greetings!

As we successfully come to the end of Term 1, I raise my voice in gratitude to the Almighty for He has kept us safe and sound. It is indeed an overwhelming experience to note how the students can keep in touch with their regular studies and carry out everyday activities. Our parents have always supported us in every step without a doubt. I would like to appreciate you, my dear students, for participating in regular online activities and taking online classes without a miss. With your support, my dear parents, students and teachers, have completed two Unit Tests and are now approaching Term 1 examinations. I wish all the students good luck and hope this pandemic ends soon so that we will be able to see our proud girls in school again. Praying for you and your family's good health. Blessings and love always!
