LKG (2024-2025) SUMMER ASSIGNMENT

Dear Parent,

Summer holidays are here again to give us respite from the scorching heat. We hope that our children will enjoy their vacation time as well their skills.

Children learn through experiences and play . There are many ways in which you can support them in gaining knowledge and understanding as well as strengthen the parent child bond.

Some joyous moments parents can do:

- Take your child on a nature walk.
- Play simple games with your child.
- Make simple conversation.
- Involve them in little household chores.
- Tell a story to child and listen to the story again.
- Explore neighbourhood.
- Try to converse in English/Mother tongue with the child.

Children Activity:

- Child can spend time with family members, know their names and relation and encourage children to discuss about fruits and vegetables in kitchen.(**Improve social skills.**)
- Draw the best moment of your vacation and bring it to school to share with friends (**improve environmental skills**).
- Capture a photo with your favourite toy or pet , decorate it and bring it to school for Show And Tell –Speak about your pic (5 sentences),**improve speaking skills**.
- Encourage children to fill water bottle and close the lids , learn to fold napkins, small clothes , arrange toys and clean up , keep them in proper place, Buttoning and Unbuttoning, Tear a Chapati and eat your Meal on your own. These **activities improve cognitive skills, fine and gross motor skills**.
- Save the birds this summer .Placing of containers of water and grains for the birds, can help the birds survive the hot summer .This **inculcate the Value Of Caring And Compassion**.

Reading Is Fun :

Children are made readers on the laps of their parents.

- Make reading a regular practice with pictures and large text.
- Make bed-time stories a part of your child's daily routine.
